

## Emergency Weather

Wee Care will be closed when severe weather is forecasted. The closings will be announced on the radio station WNSR 104.7 and St. Louis television station Channel 5 KSDK. On days when inclement weather forces the daycare to close early, parental and emergency contacts on file will be called.

Wee Care will not necessarily be closed when the schools are closed. We are aware that we have many parents who must work no matter the weather and we will make every effort to remain open to care for your child during these times. We ask that you please use your good judgment before taking your child out in extreme weather conditions.
